

School-Sponsored Clubs and Organizations

All clubs and organizations must meet the rules and regulations established by the District, the local school administration, and the Associated Student Body (ASB) constitution and bylaws to receive official school recognition. School-sponsored clubs and organizations must file a copy of their charter, constitution, statement of purpose or other desired information with the Governing Board and ASB. This material must have the approval of the school principal. The club will be designated as an official school club only when a faculty adviser is named to work with the group. The club's adviser must be approved by the principal.

Membership in clubs and organizations must be limited to students attending the school where the club has received recognition. Membership must be open to all students who meet the qualifications and standards set forth in the club charter. Membership in school clubs and organizations shall not be determined on the basis of race or religious creed, or restricted in violation of current federal or state discrimination laws.

Groups discussing controversial issues must present both sides of the issue and keep the membership open to all segments of the school population. Because the school curricular program is broad in scope, the principal must make sure that school clubs present a balanced program and are a true extension of the curriculum.

Meetings and Activities

1. The time and place of all club activities must be approved by the faculty adviser.
2. Clubs holding evening meetings must file a regular meeting schedule with school authorities.
3. Meetings and/or activities held on a school night must end by 9:00 p.m.
4. Initiations (other than those which are school-sponsored), hazing in any form, or other activities which do not complement or which interfere with any part of the instructional program are prohibited.
5. No club or organization shall engage in any social activity without the approval of the faculty adviser. A faculty adviser, or other authorized person, must be present at all club-sponsored functions.

Responsibilities of Faculty Adviser and/or the Club Sport Coach

It shall be the responsibility of the faculty adviser and/or the club sport coach to see that:

1. The club charter or statement of purpose, as approved by the school administration and the Associated Student Body, are kept on file in the school office. (Location to be designated by the principal of each school.)
2. Accurate membership lists are submitted to the school office as requested.

3. All members of the club or organization are informed of school and District rules and regulations regarding club membership.
4. Parents/guardians are informed as to all evening meetings and activities (including dates, times, and meeting places).
5. Administrative approval is obtained for all club activities.
6. No discrimination, hazing, or other undesirable type of activity is allowed as part of any program activity.
7. All meetings and activities sponsored by the group are supervised. When an alternate supervisor is needed, it shall be the adviser's responsibility to see that administrative approval has been given.
