

SchoolPool

a better,
healthier way
to get your
kids to school

Save money and time with SchoolPool.

A little help for busy parents.

SchoolPool connects parents who want to share the chore of getting their kids to and from school by carpooling, walking, or biking. It's a free, convenient, and secure online system organized by the San Diego Association of Governments (SANDAG) iCommute team, a team dedicated to reducing traffic congestion and improving the environment.

Using the secure online RideMatcher system, parents are matched with other parents who are interested in sharing driving responsibilities or would like to have their kids biking or walking to school with other students and a parent leader. Only parents and legal guardians of children who attend your child's school can participate in the school's private SchoolPool network.

Sharing trips saves time, money, and the environment

SchoolPool is a convenient way to get your kids to school while saving time, saving money on gas, reducing traffic congestion, and encouraging a healthy lifestyle for your kids. By cutting the number of car trips you take, you also help the environment by decreasing emissions.

Research has proven that when students carpool, their school attendance and timeliness improve. Carpooling, biking, and walking to school also reduce traffic congestion in and around school zones, creating a safer environment for students. For some parents, having their children take public transit to school is a good option. All San Diego transit operators allow for bicycles on board, and walking children to transit stops can lead to a healthier start to your child's school day.

SchoolPool is free, easy, and secure.

Everyone into the Pool!

The SchoolPool program is open to parents and students in all public and private elementary, middle, and high schools within San Diego County. Participation is voluntary and parents establish the schedules that work best for them. When you sign up, be sure to help spread the word. The more parents that register in your school's secure SchoolPool network, the more likely you are to find carpool matches, bike buddies, or walking school buses.

What are bike buddies and walking school buses?

Bike buddies are groups of students that ride bicycles to school together with adult/parent leaders. A walking school bus is a group of children walking to school together with one or more adults. Walking school buses or bike buddies can be as informal as two families taking turns biking or walking their children to school or as structured as establishing a route, a timetable, and a group of parent volunteers.

Participating Schools

iCommute has helped to establish SchoolPool programs at elementary, middle, and high schools throughout the region. Visit iCommuteSD.com and click on the SchoolPool tab to find out if your school has signed up. If not, iCommute can work with your school to set up a secure SchoolPool network.

Getting started is as easy as A-B-C.

- A. Contact your child's school and ask for the transportation coordinator to find out if your school is participating in the SchoolPool program. If not, tell them you are interested in the free commuter program and ask them to contact iCommute. SchoolPool can be reached by calling 511 and saying "SchoolPool" when prompted — or simply visit iCommuteSD.com. We will help establish a secure network for your school for free.
- B. If your school's already participating, request the security passcode from the SchoolPool coordinator and sign up for an account on iCommuteSD.com.
- C. Once your account has been created, follow the step-by-step guidelines for setting up your trip to find matches (available online or ask your school for a copy). Contact parents with whom you'd like to partner, and you're ready to SchoolPool!

We'll help you get started today.

Visit SchoolPool online at iCommuteSD.com for more information.

For direct assistance, call 511 and say 'SchoolPool' or e-mail us at schoolpool@sandag.org.
